Version 2.15

17th March 2025

WHAT OUR APP OFFERS

Credit Check

Enriches Lead and Accounts records with Red Flag Alert data and generate new leads/contacts.

Find Leads

Find and generate lead records from the Red Flag Alert database.

Field Mapping

Map up to 80 Red Flag Alert data fields to our custom fields or your own fields. Switch on/off fields.

Monthly Accounts Refresh Feature

Updates **ALL** your account records that have company numbers with Red Flag Alert data. Executes on the last day of each month.

Manual Accounts Refresh Feature

Same as the Monthly Accounts Refresh, but you can run once per day.

Gazette Notifications

Notifies you within two hours of any company gazette notice by creating a task associated with the Account record.

[Click here for more information about Gazette notifications.](#)

Minimum CRM edition requirements.

Our App requires the enterprise edition.

WARNING: What impact our App has on your Data.

The monthly and manual accounts refresh feature will update **ALL** your account records depending on the field mapping configuration.

These features are switched off by default.

Installation

We will give you the salesforce package URL to install.

Uninstallation

Click on Apps, Click Packaging, Click Installed Package, Uninstall RFA B2B Leads & Credit Check

WARNING: By uninstalling the App, you will lose all Red Flag Alert data.

RFA Salesforce App Launcher

The screenshot shows the Salesforce App Launcher interface. At the top, there is a navigation bar with the text "RFA B2B Leads and ..." and several dropdown menus: "Accounts", "Contacts", "Leads", and "RFA Schedules". A search bar is present with the text "Search Accounts and more...". Below the navigation bar, the "App Launcher" section is visible, featuring a search input field labeled "Search apps or items..." and a "Visit AppExchange" button. The "All Apps" section displays a grid of application tiles. The tile for "RFA B2B Leads and Credit Check" is circled in red. This tile includes the RFA logo, the app name, and a description: "Credit check and find prospects/companies with our company search." Other visible app tiles include Service, Marketing, Community, Salesforce Chatter, Content, Sales Console, Service Console, Sales, Lightning Usage App, Digital Experiences, Salesforce Scheduler Setup, and Bolt Solutions.

AUTO ENRICHMENT FEATURE

Automatic enrichment of lead records with Red Flag Alert data.

HOW IT WORKS

When a lead record is created, a trigger will run to enrich it using the company name, RFA company number, and postcode.

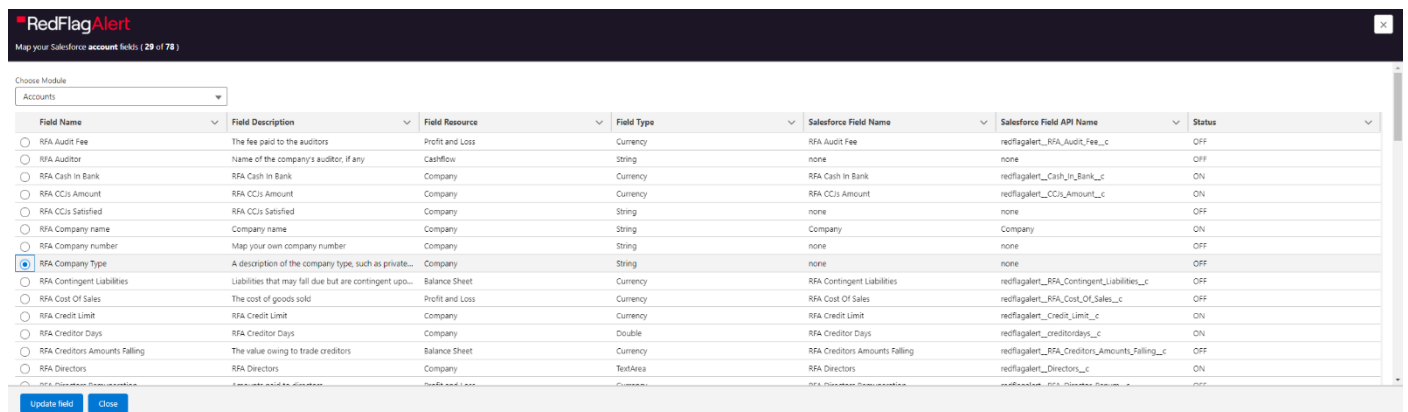

CREDITS: Each lead enrichment will be one credit, if you have no credits, no enrichment will be done.

SWITCHING AUTO ENRICHMENT ON/OFF (Default OFF)

- Open the App, click on the **admin** button.
- Click ON/OFF switch for “Auto Enrichment (Leads)”
